

chest, with its posterior upper edge touching the inferior angles of the shoulder blades, and its anterior lower edge the upper part of the nipples. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to empty his chest of air as much as is possible. This is best done by continuous whistling with the lips as long as sound can be produced. The tape is carefully gathered in during the process, and when the minimum measurement is reached it is recorded. The candidate will then be directed to inflate his chest to its utmost capacity. This maximum measurement will likewise be noted. The girth with the chest fully expanded and the range of expansion between the minimum and the maximum will then be recorded.

5. The hearing must be good.
6. The speech without impediment.
7. The teeth in good order, *i.e.*, decayed or broken teeth must be properly stopped or crowned, and deficient teeth replaced by artificial teeth where necessary for effective mastication.
8. The chest must be well formed, the lungs and heart sound.
9. Rupture, hydrocele, varicose veins in a severe degree, or other condition likely to cause inefficiency will disqualify a candidate, unless such condition is cured by operation.
10. The limbs, feet, and toes must be well formed and developed, with free and perfect motion of all the joints.
11. A candidate must have no congenital malformation or defect likely to interfere with efficiency.
12. A candidate must not be the subject of chronic skin disease.
13. Evidence of previous acute or chronic disease pointing to an impaired constitution will disqualify.
14. The Regulations as to the standard of vision required are shown separately for each department. In all cases of "colour blindness" a note of the same will be made on the candidate's papers.

Candidates may, if they wish it, undergo a preliminary examination by the Medical Board, which meets at the India Office every Tuesday, under the following conditions:—

(a) Applications must be addressed to the Under Secretary of State, India Office, Whitehall, London, accompanied by a fee of two guineas, and a statement as to the particular appointment which the candidate desires to obtain.

(b) Candidates must pay their travelling expenses.

(c) Candidates considered to be unfit by the Medical Board at this preliminary examination are not bound to accept its opinion, but may at their own risk, continue their studies, with the knowledge that they will have to submit themselves for a final medical examination by the Medical Board, prior to the examination, or to their appointment.

(d) On the other hand, it must be distinctly understood that the preliminary examination by the Medical Board is held solely for the candidate's information, and that, if after that examination he is reported to be apparently fit, he has not on that account any claim to be accepted as physically fit when he presents himself for the final Medical examination, upon which alone his acceptance or rejection will depend. Candidates may be considered fit for the service at the preliminary examination, but may be found at the final examination to be unfit, either on account of some physical defect which did not exist or passed undetected at the preliminary examination, or for other reasons.

REGULATIONS AS TO THE STANDARD OF VISION.

1. If myopia in one or both eyes exists, a candidate may be passed provided the ametropia does not exceed 3.5 D, and if, with correcting glasses not exceeding 3.5 D, the acuteness of vision in one eye equals $\frac{6}{9}$ and in the other $\frac{6}{6}$, there being normal range of accommodation with the glasses.

2. Myopic astigmatism does not disqualify a candidate, provided the lens, or the combined spherical and cylindrical lenses, required to correct the error of refraction, does not exceed 3.5 D; the acuteness of vision in one eye, when corrected, being equal to $\frac{6}{9}$, and in the other $\frac{6}{6}$, together with normal range of accommodation with the correcting glasses, their being no evidence of progressive disease in the choroid or retina.

3. A candidate having total hypermetropia not exceeding 4 D is not disqualified, provided the sight in one eye (when under the influence of atropine) equals $\frac{6}{9}$, and in the other eye equals $\frac{6}{6}$, with +4 D glasses, or any lower power.

4. Hypermetropic astigmatism does not disqualify, provided the lens or combined lenses required to cover the error of refraction do not exceed 4 D, and that the sight of one eye equals $\frac{6}{9}$, and the other $\frac{6}{6}$, with or without such lens or lenses.

5. A candidate having a defect of vision arising from nebula of the cornea is disqualified if the sight of one eye be less than $\frac{6}{12}$. In such a case the better eye must be emmetropic. Defects of vision arising from pathological or other changes in the deeper structures of either eye, which are not referred to in these rules, may exclude a candidate.

6. Squint or any morbid condition, subject to the risk of aggravation or recurrence, in either eye, may cause the rejection of a candidate. The existence of imperfection of colour sense will be noted on the candidate's papers.

It however occasioned slightly unsettled weather in the central parts of the country, and a few falls of rain occurred in Central India East and in Chota Nagpur and the adjoining districts.

Some little rain also fell in Burma, Assam and the south of the Peninsula, but on the whole weather was dry throughout the week.

2. *Burma.*—Local showers occurred in the Bay Islands and south Tenasserim, and on the 29th light rain fell at a few places in the northern half of the province.

| | |
|----------------------|-------|
| January 25th, Mergui | 1·00" |
| " 27th, Port Blair | 0·46" |
| " 28th, Sutna | 0·36" |

4. The rainfall of the week was in excess in the Bay Islands and normal in Burma and Central India East. No rainfall usually occurs at this time of year in Gujarat, Central India West, Berar, the Konkan, the Bombay Deccan, Hyderabad and the Madras Deccan; in the rest of the country the week's rainfall was in defect.

The seasonal rainfall up to date is more than 20 per cent. in defect in almost every division. The only exceptions are Upper Burma, Kashmir, Baluchistan and Malabar where it is practically normal, and Gujarat where the absence of rainfall is the normal feature of the season.

Burma.—There was no rain during the week. Harvesting of winter rice is nearly finished. Threshing and winnowing are advancing. Agricultural operations for spring rice and miscellaneous crops are progressing. The condition of standing crops is good. Fodder and water are sufficient. The price of unhusked rice has fallen slightly in Rangoon.

Assam.—The weather is seasonable. Slight rain fell in places. Harvesting of winter rice is over and the outturn is good. Gathering of mustard and pulses, crushing of sugarcane, plucking of tea and picking of cotton are going on. Transplanting of spring rice is proceeding. Winter potato in the Khasi and Jaintia Hills has been harvested and land is being prepared for summer potatoes. Prospects of standing crops are good. Fodder is scanty in the Surma Valley. The price of common rice is stationary. Cattle disease prevails in three districts.

Bihar and Orissa.—During the week there was no rain throughout the Province. The weather was seasonable. Harvesting of paddy is over and threshing still continues in some districts. Pressing of sugarcane is in progress. Standing spring crops and vegetables are doing well. The average price of common rice is almost stationary. The condition of cattle is good. The supply of fodder and water is sufficient. Agricultural prospects in the Feudatory States of Orissa are on the whole good.

United Provinces.—With the exception of light rain in the Himalayan and western submontane districts the week has been rainless. Rain is urgently needed in the whole of the western submontane tracts, the Upper Doab and most of the Central Doab. It is also needed in the hills and in Rampur. In Sitapur, Pilibhit and Cawnpur and in the uplands of Mirzapur, slight damage by frost is reported. The condition of standing crops is so far good. Sugarcane is being pressed and the spring crop irrigated. Fodder and water are sufficient. In Mirzapur there are 1,060 persons working on test works, 8,332 on ordinary canal works and 948 on waterworks, while in the Chakia district of the Benares State there are 4,347 persons on regular works and 550 on gratuitous relief. Cattle disease continues in the hills and in Bundelkhand and is sporadic in nine other districts. Prices show a tendency to rise in the west. Elsewhere prices are stationary.

Punjab.—The weather was dry except in parts of Hissar, Ambala, Sialkot and Rawalpindi where slight rain has fallen. Rain is urgently wanted everywhere. Pressing of sugarcane and harvesting of *toria* continue with outturn average to good. The condition of irrigated spring crops is generally average to good but unirrigated crops are suffering in most districts for want of rain. Sowings of extra spring crops have commenced. Cattle are generally healthy but fodder is becoming scarce except in the Ambala division. Prices remain high.

North-West Frontier Province.—No rain fell except slight showers in the Marwat tahsil in the Bannu district. Rain is badly wanted throughout the Province. The weather is cool and at times cloudy. The condition of standing crops is generally fair on irrigated but poor on unirrigated areas. Pressing of sugarcane is in progress and the outturn is normal. Planting of sugarcane has commenced in the Bannu district. The condition of cattle is good. Fodder and water are scarce in Dera Ismail Khan and generally sufficient elsewhere. Prices are high and rising.

The wheat crop is however in excellent condition. Cattle disease prevails in parts of Gwalior, Indore, Bhopal and Bhopawar. The fodder supply is ample. Prices are normal in Bhopal, above normal in Baghelkhand and steady elsewhere.

Picking continues in parts of Sind, Gujarat, Kathiawar and Rewa Kantha. The fodder supply is deficient in parts of Ahmednagar and Sholapur. A depression appeared over Persia on the 2nd February and advanced slowly eastwards. On the 4th it gave nearly general rain in Baluchistan and showers in the hills of the North-West Frontier Province, and on the following day precipitation extended into Kashmir and eastwards along the Himalayas as far as Chakrata. It gave no rainfall of importance in the plains.

Northeast India, including Orissa.—Narayanganj, Barisal, Jessore and Balasore had light rain on the 31st January.

Season and Crop Prospects for the week ending Saturday, 1st February 1913.

Burma.—Light rain fell in fourteen districts and in the Shan States. Threshing and winnowing of the main winter rice crop are progressing. Cultivation of spring rice and island crops is proceeding. Standing crops are generally doing well. Prices of unhusked rice have again fallen in Rangoon.

Assam.—The weather was seasonable. Slight rain fell in places. Pruning of tea still continues. Pressing of sugarcane and gathering of mustard and pulses are nearing completion. Transplantation of spring rice is in progress. Ploughing for early rice and jute has commenced in places. Fodder is insufficient in Sylhet and Cachar. The price of common rice has risen by about one per cent. Cattle disease is prevalent in the Khasi and Jaintia Hills.

Bengal.—During the week light showers were reported from places in the Presidency, Burdwan, Dacca and Chittagong divisions. There was no rain in the Rajshahi division except in parts of Darjeeling and Pabna. Harvesting of spring crops continues. Prospects of standing spring crops are good. Transplantation of summer rice and pressing of sugarcane are in progress. Preparation of fields for autumn crops is going on. The average price of common rice for the Province has fallen slightly as compared with that of the previous week. Cattle disease is reported from places in Khulna, Midnapore, Malda, Tippera and Noakhali.

Bihar and Orissa.—Light rain fell in the greater part of Chota Nagpur and in parts of Orissa. There was no rain in Bihar. Threshing of winter rice still continues in some districts and pressing of sugarcane is going on. Preparation of lands for the next season's crops has commenced in some districts. The condition of standing spring crops and vegetables is good. The average price of common rice has risen slightly as compared with that of the previous week. The condition of cattle is on the whole good. The supply of fodder and water is sufficient throughout the Province. Prospects of standing crops in the Feudatory States of Orissa are reported to be good.

United Provinces.—With the exception of light showers in Mirzapur and the Benares State the week has been rainless. Rain is urgently required in the whole of the Himalayan, the western submontane, the upper and central Doab and the north central and central submontane tracts. Some deterioration to standing crops in these tracts is reported. Rain is also needed in Cawnpore, Fatehpur, Allahabad and Jalaun. Slight damage by frost especially to *arhar* and rape, is reported from twenty-two districts. The condition of standing crops is so far good. Pressing of sugarcane, irrigation of spring crops and preparation of land for the next sugarcane crop are in progress. Fodder and water are sufficient. In Mirzapur, there are 1,479 persons on test works and 10,504 on ordinary canal works and water works, while in the Chakia district of the Benares State there are 5,334 persons on regular works and 2,512 on gratuitous relief. Cattle disease is widespread in Bundelkhand and sporadic in seventeen other districts. Prices are rising in the hill, central submontane and lower Doab districts and are stationary elsewhere.

Punjab.—The weather is dry. Rain is urgently wanted everywhere. Pressing of sugarcane and harvesting of *toria* continue with outturn average to good. The condition of irrigated spring crops is generally average to good but unirrigated crops are in many districts in a precarious condition for want of rain. Sowing of extra spring crops continue. Cattle are generally healthy but fodder is becoming scarce except in the Ambala division. Prices have risen slightly.

North-West Frontier Provinces.—The week was rainless. Rain is required badly throughout the Province. The weather is cool and at times cloudy. Standing crops are generally fair in irrigated but poor on unirrigated areas. Sugarcane is being pressed and the

outturn is normal. Planting of sugarcane is in progress in Bannu. Cattle are in good condition. Fodder and water are generally sufficient but are scarce in Dera Ismail Khan. Prices are high and rising.

Jammu.—Slight rain fell during the week. Prices are fluctuating. Wheat sells from 8 to 16 and maize from 13 to 25 seers per rupee. The condition of standing crops is below average. Cattle disease of mild type prevails in the Riasi tahsil. Fodder is insufficient in some tahsils.

Kashmir.—There was no rain during the week. Operations for spring crops are in progress. Prices are unchanged. Cattle disease prevails in certain villages of Kulgam and Verinag. Fodder is average.

Rajputana.—The weather was cloudy and cold. Slight rain fell in Bikaner. Rain is badly wanted in some places in the eastern States. Spring crops are being irrigated and are doing well. Prospects are generally fair. Cattle are generally in good condition. Fodder and water are sufficient. Prices are generally high and steady.

Central India.—Light rain fell in Baghelkand. The weather is warm and cloudy. Grain crops have been damaged slightly in Rampura Bhanpura of Indore and in parts of Gwalior by the last week's cold. Cotton has been damaged in Jaora in the Malwa Agency and in Manpur in the Bhopawar Agency. Prospects of spring crops are generally excellent. Cattle disease is reported in parts of Gwalior, Bundelkhand and Bhopawar. The fodder supply is ample. Prices are normal in Bhopal, above normal in Baghelkhand, fluctuating in Malwa and Bhopawar and steady elsewhere.

Central Provinces.—The weather continues to be cold and occasionally cloudy. During the week Jubbulpore and Bilaspur received light showers amounting to 16 and 34 cents respectively. In Jubbulpore and in the interior of Mandla hail is reported to have fallen but to have caused no damage. Threshing and winnowing of autumn crops are nearly completed. Picking of cotton continues in a few districts. Frost in the Vindhyan districts and Jubbulpore and cloudy weather in Bilaspur caused slight damage to pulses and linseed. The condition of spring crops is otherwise generally satisfactory and prospects are favourable. Fodder and water are sufficient but the former is either scarce or dear in Saugor, Akola and Amraoti. Cattle are in good condition. The price of *juar* rose by 2 seers per rupee in Yeotmal. Elsewhere prices remained fairly steady.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 8th February 1913.

Burma.—Light rain fell in two districts of Upper Burma. Threshing and winnowing of winter rice are nearly completed. Agricultural operations for spring and summer rice and miscellaneous crops are proceeding. Standing crops are generally doing well. The price of unhusked rice has risen slightly at Rangoon.

Assam.—The week has been dry in Jorhat, Dibrugarh and Shillong where slight rain fell. Ploughing of land for early rice is going on in the Assam Valley and that for broadcast winter rice has commenced in Sylhet. Plucking of cotton is finished and the outturn is estimated at three-fourths of the normal. Gathering of mustard and crushing of sugarcane are still proceeding. Pruning of tea is still in progress. Fodder is insufficient in three districts and water is insufficient in the Khasi and Jaintia Hills. Cattle disease is reported from Sylhet, Sibsagar and Manipur. The average price of common rice has risen by about one per cent.

Bengal.—No rain fell except some light showers in parts of Khulna and Darjeeling. Harvesting of spring crops continues. Prospects of standing spring crops are good. Transplantation of summer rice and pressing of sugarcane are in progress. Preparation of fields for autumn crops is going on. The average price of common rice has risen by about 1·4 per cent compared with that of the previous week. Cattle disease is reported from places in Murshidabad, Khulna, Malda, Mymensingh and Noakhali.

Bihar and Orissa.—Light rain fell in the Patna, Gaya, Saran and Hazaribagh districts. There was no rain in the remaining districts of the Province. Pressing of sugarcane is going on. Preparation of lands for the next season's crops has commenced in some districts. The condition of standing spring crops and vegetables is good. The average price of common rice has fallen slightly in Bihar and has risen slightly in Behar and Chota Nagpur. The condition of cattle is on the whole good. The supply of fodder and water is sufficient throughout the Province. Prospects of standing crops in the Feudatory States of Orissa are on the whole good.

United Provinces.—With the exception of light showers in Dehra Dun, Jhansi, Rampur and Tehri, the week was rainless. Rain is urgently required in almost all the Himalayan, Western Submontane, Upper Doab, Central Doab, North, Central and Central Submontane districts and in Gonda, Rampur and the uplands of Mirzapur. Standing crops are deteriorating in the Western Submontane districts. Slight damage by frost is reported chiefly to arhar and mustard from fifteen other districts. The condition of standing crops is otherwise good. Crops are ripening. Fodder and water are sufficient. In Mirzapur there are 1,827 persons on test works and 11,690 on ordinary canal works and water works, while in the Chakia district of the Benares States there are 5,384 on regular works and 2,512 on gratuitous relief. Cattle disease is still widespread in Bundelkhand and sporadic in fifteen other districts. A general rise in prices has taken place in the north and west of the Province. Elsewhere prices are fluctuating with an upward tendency. Since the close of the week rain has been received over a widespread area.

Punjab.—Light rain has fallen in most districts. More rain is urgently wanted. Pressing of sugarcane and harvesting of toria continue with outturn average to good. The condition of irrigated spring crops is generally average to good but unirrigated crops are in many districts withering for want of rain. Sowings of extra spring crops continue. Cattle are generally healthy, but fodder is becoming scarce. Prices show an upward tendency.

North-West Frontier Province.—No rain fell with the exception of insufficient showers in the Hazara and Peshawar districts. Rain is badly wanted throughout the Province. The weather is cool and at times cloudy. The condition of standing crops is generally fair on irrigated but poor on unirrigated areas. Pressing of sugarcane continues with outturn normal. Planting of sugarcane is in progress in Bannu. The condition of cattle is generally good. Fodder and water are scarce in Dera Ismail Khan. Elsewhere they are generally sufficient. Prices are high and rising.

Jammu.—There was slight rain during the week. Prices are fluctuating. Wheat sells from 9 to 16 and maize from 12 to 25 seers per rupee. The condition of standing crops is below average. Cattle disease of mild type prevails in the Raisi tahsil. Fodder is insufficient.

Kashmir.—It rained twice during the week. Spring crops are in good condition. Prices are unchanged. Cattle disease prevails in some villages of the Kulgam tahsil and in Doru Niabat. Fodder is average.

Rajputana.—The weather was cloudy and cold. Slight rain fell in Haraoti and in the Ajmer district. Rain is badly wanted in some places in the eastern States. Spring crops are being irrigated and are doing well. Prospects are generally fair. Cattle disease is reported in a few places. Fodder and water are sufficient. Prices are generally high and stationary.

Central India.—There was light rainfall from thunderstorms in Bhopal and Bundelkhand. Rain is needed for spring crops in Gwalior. The weather continues to be cloudy and warm. Outturn of spring crops is expected to be excellent. Cattle disease is reported in parts of Gwalior, Bhopal and Bundelkhand. The fodder supply is ample. Prices are normal in Bhopal, above normal in Baghelkhand and steady elsewhere.

Central Provinces.—The sky has been overcast and rain is reported from fifteen districts but only in two districts—Mandla which received 2·24 and Jabulpore 1·61 inches—did it exceed one inch. No damage to crops has yet been reported. Harvesting of linseed and pulses has generally begun, while in Wardha and Bhandara harvesting of wheat has also begun. Prospects of spring crops are generally good. The supply of fodder and water is adequate but fodder is getting scarce and dear in Saugor, Wardha, Akola and Amraoti. The price of *juar* rose by 2½ seers per rupee in Chhindwara. Variations are unimportant elsewhere.

Federatory States.—There was slight rainfall in three of the States. The condition of spring crops is generally satisfactory. The only change in prices is a sharp rise in Kanker of 3 seers per rupee in rice.

Bombay.—Standing crops are generally in good condition except for slight damage by insects in parts of Dharwar. Crops are withering in parts of West Khandesh and Ahmednagar. Harvesting of spring crops is in progress in parts of the Deccan, the Karnatak, Baroda, Rewa Kantha and Kolhapur. Cotton picking continues in parts of Sind, Gujarat, the Karnatak, Kathiawar, Cutch and Rewa Kantha. The fodder supply is deficient in Ahmednagar. Agricultural stock is generally in good condition and sufficient except in parts of Cutch. The condition of stock is deteriorating in Ahmednagar. Drinking water is generally adequate except in parts of Ahmednagar and Sholapur. Water for irrigation is deficient in parts of Ahmedabad, West Khandesh, Ahmednagar and Bijapur. Prices are high but steady. The public health is generally good. Grain stocks are sufficient.

*The weekly report on the famine and scarcity is as follows:—*Distress is not yet severe in Ahmednagar. It will probably increase on completion of the spring harvest. There is no wandering or emaciation. Emigration continues. People on relief are generally in good condition. The public health is good. Land revenue suspensions have been granted and *takavi* advanced freely for fodder. Government grass is being sold to needy cultivators at low rates. Measures for the improvement of the water supply are in progress. Charitable funds are being utilized for cattle kitchens and for the grant of clothing to dole recipients. The numbers on gratuitous relief for the week ending 8th February were:—Ahmednagar 15,445, Poona and Sholapur 1,381. Total 16,826.

Hyderabad.—No rain fell during the week. The spring crop is being harvested in many parts and its condition is generally fair to good except in parts of the Aurangabad, Bir and Usmanabad districts. Picking of spring cotton has commenced in the Raichur district but the crop is not so good as was at first estimated. Castor seed pickings continue. Other oilseed crops are expected to be light this year. Spring crops have sustained some damage from insects in parts of the Karimnagar district. Late rice sowings continue. Fodder is being imported into affected talukas of the Aurangabad and Bir districts. Suspensions of revenue have been granted. Distribution of *takavi* continues. Ordinary public works have been increased. Cattle disease prevails in 8 talukas. Fodder scarcity is felt in 15 and water scarcity in 9. Prices of food grains continue high and steady and are the same as reported last week.

Mysore.—Prices of food grains are generally steady. Markets are well supplied. Standing crops are in good condition. Harvesting operations are in progress and the outturn is fair. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Picking of coffee and threshing of rice continue. Prices of food grains have fallen slightly. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—There was light rain in Nellore and none elsewhere. Standing crops are fair to good. Harvesting of dry crops, paddy and sugarcane is proceeding with outturn fair to normal. Sowings of dry crops and paddy are proceeding normally in parts. The condition of cattle is generally good. Fodder and water are generally sufficient. Prices are falling.
